

Certified Pre-Owned GSP-1600 Handheld Satellite Phone

Globalstar provides true interoperability for public and private sectors to communicate in real-time via voice and data, within and across agencies and jurisdictions, when needed and as authorized. Personnel can quickly and clearly coordinate with co-workers when terrestrial networks are down.

KEY FEATURES

- **Powered by 100% satellite technology** – Works where cell phones don't.
- **Crystal-clear voice quality** – No “tunnel sound” or voice delay during conversation like the competition.
- **Utilizes Globalstar's fastest data speeds** – 4X faster than any other mobile satellite company (9600 hotspot required, sold separately).
- **U.S.-based phone number** – Direct dialing of 911 services right out the box while our competitors use country codes, making dialing very difficult.

FREE PHONE
